

Steps to take to insert a photo in your post (This tutorial assumes that you use Photobucket as your web photo storage)

Here are the steps you need to do :

1. Go to your photobucket account www.photobucket.com. Sign in to your photobucket account.

2. Select the photo you wish to upload to the EPI4dogs website. You should get a screen similar to below.

The image is an advertisement for the 2010 Buick Enclave. It features a silver SUV and the text "A Consumers Digest Best Buy Award Winner 2010 Buick Enclave". There are buttons for "LEARN MORE" and "LOCATE DEALER". The Buick logo is also present. At the bottom, it says "Want to go ad-free? Upgrade to Pro!".

The image shows a screenshot of a photo album viewer. The title is "Viewing 1 of 44 (View album)". There are navigation buttons for "Previous" and "Next". Below the title, there are options for "zoom in", "edit", "resize", "rotate", "share", "download", "photo products", "send to phone", and "delete". The main image shows a German Shepherd dog sitting on a paved path next to a black folding chair. The background is a lush green garden.

3. In the lower left corner look for the box that is titled "Share this image" then look for the item "Direct Link":

4. Use your cursor and left click on the yellow box that says "http://i847.photobucket.com/album....."

The box now turns blue. Then right click and select copy and left click. This will copy the location of that picture

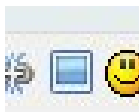

5. Go to EPI4dogs web site and start a new topic or comment on an existing topic. You should get a screen similar to below:

A screenshot of a forum interface titled "FORUMS" and "Create New Topic". It includes a "Category:" dropdown menu set to "General Discussion", a "Topic Title:" text input field, and a "Post:" text area with a rich text editor toolbar. At the bottom, there is a checkbox for "Include my signature (edit)" and "Submit" and "Cancel" buttons.

6. Find the area below topic that looks like below:

7. Find the icon that looks like below:

8. After clicking on the TV screen icon you will get a box that looks like below:

9. Paste the info you copied from Photobucket in the space like below:

10. If you did everything right, your post should look something like this.
